WE EXPECT TO BE ABLE TO SHOW THESE FIRST OF WEEK

THE FABRIC SHOP

STORE OPPOSITE WOODWARD'S CORNER, DANIELSON

We cut one suit with our ten fingers not ten suits with one machine. We draft a suit to be as individual and intimately your own as your thoughts or your toothbrush. We charge from \$28.00 up, same as you pay for garments turned out by the statistical system.

We will show you a wonderful assortment of beautiful patterns of material, rich, handsomely designed selections of virgin wools and specially selected worsteds.

Gifted tailors will mould these materials into graceful suits of body-fitting perfection. Why not have a suit made for yourself this Spring? It will not be an extra expense to you.

YOUR SHOES

GET GRACE WITH BEAUTY

It is difficult to walk or dance gracefully in slippers that fit imperfectly at the heel. Queen Quality Slippers and Pumps are proportioned to fit snugly at the heel and afford ease, security and balance, lessening the chances of a turned ankle. In addition their beauty confers distinction on the feet which they dress so becomingly.

EDITORIAL

In many lines of good there is a downward tendency of prices from the record high standards of war-times. Do you know in what lines these reductions are being made? Are you keeping yourself informed as to what live Danielson merchants are offering for the Spring buying season?

If you are not you are one of many who may lose much money this Spring by not keeping well informed as to buying opportunities. This page of advertising calls attention to the offerings of hustling business men of Danielson. They have been striving for weeks past to get for their customers the benefits of such lower price changes as have been made, and they have been successful.

Of course, it is too much to expect that prices will be found back at pre-war levels, but lower figures are being asked for many articles of food and for many things that one wears, and many other things that one must buy to meet the innumerable demands that modern life makes upon one's pocketbooks.

In whatever line your wants may be, you will find that by keeping close watch of the advertising on this page you will learn of many things that will be of financial benefit to you.

The old motto that a Dollar Saved is a Dollar Earned, stands as strong as ever.

The World Moves On

Printers thought the typesetting machine would not be practical. The horse breeder said the automobile would never come into general use. The wire manufacturer said the "wireless" was a dream. The last to be disturbed by the wheels of progress is the single-record phonograph manufacturer, who says the playing of all records on one machine "cannot be done."
